### Dear Sir or Madam,

Thank you very much for helping me choose Payroc as a potential employer through networking in the careers fair in Queen's University Belfast! I loved chatting with Kerri Masterson, your Principal Technology Engagement Leader.

I first learned of this amazing opportunity through both in-person events and the QUB MyFuture platform. I am now pursuing this position of Placement Software Engineering Intern in Belfast for 2025. Please find attached my CV.

*I am an excelling academic, having achieved a perfect GPA of 4.0 in both my first year of University and my A-Levels. I was the leader of a winning team in the QUB Sustainability Hackathon 2024. I am also highly qualified in communication, with a Grade 8 and additional Diploma in Speech and Drama.*

*I am extremely skilled with both JavaScript and SQL, shown through academics and frequent personal projects, keeping my skills sharp. I have an extremely developed knowledge of AGILE Methodologies in the real workplace through work experiences and group projects developed under AGILE. I have experience in the low-level architecture of computers, having achieved a 90% in a relevant module. I have also poured many hours into collaboration with friends to complete tricky programming challenges alongside creative and innovative personal projects, either for competitions or for fun and growth.*

*In the making of this application, I have gained a strong appreciation for Payroc. I am amazed by the scale and influence of the company, revealing Payroc to me as a vital company helping to keep the economy of the UK and Ireland alive. The Transactional Banking sector of IT is vital, and I would adore to get involved, developing solutions (such as Payroc Gateway, Cloud or ACH) which will positively impact many people worldwide. Alongside PayRoc, I can build my career while developing vital skills and relevant business knowledge.*

Thank you very much for taking the time to review my CV.

I hope to meet you again in the next stages of the application process!

Yours faithfully,

Daniel Mackle.
