Dear Sir or Madam,

Thank you very much for helping me choose Allstate as a potential employer through networking with you in the careers fair in Queen's University Belfast!

I first learned of this amazing opportunity through both in-person events and the QUB MyFuture platform. I am now pursuing this position of Placement Software Engineering Intern in Belfast for 2025. Please find attached my CV.

I am an excelling academic, having achieved a perfect GPA of 4.0 in both my first year of University and my A-Levels. I was the leader of a winning team in the QUB Sustainability Hackathon 2024. I am also highly qualified in communication, with a Grade 8 and additional Diploma in Speech and Drama. I am extremely skilled with both C#, C++ and SQL, shown through academics and frequent personal projects, keeping my skills sharp. I have an extremely developed knowledge of AGILE Methodologies in the real workplace through work experiences and group projects developed under AGILE. I have experience in the low-level architecture of computers, having achieved a 90% in a relevant module. I have also poured many hours into collaboration with friends to complete tricky programming challenges alongside creative and innovative personal projects, either for competitions or for fun and growth.

In the making of this application, I have gained a strong appreciation for Allstate. I am amazed by the scale and influence of the company, revealing Allstate to me as a vital cornerstone, upholding and innovating the Insurance industry. I am steadfast in my belief that, alongside Allstate, I will be able to build my career while developing vital skills and relevant business knowledge. I would adore to develop solutions to real problems, involved in a company which truly affects the lives of many people all over the globe. I was also happy to learn that Allstate NI won an Award for Workplace of the Year 2022.

Thank you very much for taking the time to review my CV.

I hope to meet you again in the next stages of the application process!

Yours faithfully,

Daniel Mackle.
